

**DANIELLE N. GROSS,
PH.D.**

Patent Agent

215-255-9233

dgross@vklaw.com

Danielle focuses her practice on patent preparation and prosecution for domestic and foreign clients. She also provides comprehensive patentability and freedom to operate opinions, as well as manages patent portfolios for clients across multiple jurisdictions.

Danielle has experience across a range of technologies including pharmaceuticals, biotechnology, organic chemistry, inorganic chemistry, small molecules, nucleic acids, proteins, peptides, molecular diagnostics, and medical devices, where she uses her technical experience to strategically advise clients. Danielle has also gained valuable knowledge in the mechanical arts having represented a large multinational automotive corporation over the past number of years.

Previous Work and Industry Experience

Prior to joining Volpe Koenig, Danielle worked as a medical writer where she prepared research manuscripts, review articles, congress abstracts, and presentations on a variety of therapeutics and medical devices under various stages of clinical development. She was also involved with publication planning, drafting scientific statements, and gap analyses for pharmaceutical industry clients.

Danielle has extensive experience as a research scientist. Her doctoral work focused on vesicle trafficking and transport of glucose into cells, as well as the regulation of catecholamine-induced lipolysis. Following graduate school, Danielle did a post-doctoral fellowship at the University of Pennsylvania where she studied the effects of cytokine

signaling on pancreatic beta-cells using transgenic mouse models. As a scientist, she co-authored numerous scientific publications, was awarded research grants, and presented her work at major scientific meetings.

Life Beyond Law

Danielle is a Pilates and Yoga enthusiast, and loves to hike, kayak, bike, and ski whenever she gets the chance. Her other interests include the symphony, the ballet, playing the piano, travelling, and spending time with family and friends.

Experience

Danielle has experience across a range of proficiencies including:

- Alloys
- Automobile and Parts and Components
- Batteries
- Biologics
- Biotechnology
- Drug Delivery Devices and Systems
- Food and Beverage Technology
- Medical Devices and Endoscopes
- New Chemical Entities
- Organic Chemistry
- Pharmaceuticals
- Surgical Implants
- Medical Devices
